Office—Temple, Main and New High.

It is said that the liquor dealers in Ohio are doing their utmost to prevent the Republicans from getting control of the Senate, in order to prevent the passage of the Scott law.

An Ohio paper makes the following announcement under the head of "Labor Notes:"

Judge Stanley Matthews is not to be married to Mrs. T. C. Theaker until some time next month. The wedding will take place in New York City.

Democratic ex Congressman Converse, of Ohio, concurs with the Republicans in the opinion that the cases of the four fraudulently-chosen Senators from Hamilton county are not divisible, and must be considered together.

A Second avenue car driver in New York, who undertook to promote the Third avenue boycott by driving his car directly into a Third avenue car which was filled with passengers, has been surprised by a six months' sentence to the penitentiary.

According to the estimates of the Brooklyn Eagle, the uncertainty as to the cost and conditions of labor will occasion a net decrease of one thousand houses in the construction of the current year. Such a decrease means a loss of many thousands of dollars to workingmen.

Representative Hewitt, of New York, must have lost his head when he declared that "the tax-payers have reached the limit of endurance, and riot, death and dynamite are the results." This is nonsense; the Socialists pay no taxes except on beer.

Governor Foraker, of Ohio, having been chosen delegate to the General Conference of the Methodist Episcopal Church South, now in session at Richmond, Va., members of the conference took occasion to express the opinion that his presence among Southern ministers after his denunciation of Jefferson Davis would be in bad taste.

The St. Louis Republican (Dem.) states that the high license system in Missouri has resulted in "a diminished number of saloons, a decrease in the drinking habit, and a larger revenue from the sale of beverages." A few years ago the license fee was only $50. Now it ranges between $550 and $1500.

Stoneman missed another opportunity when he failed to declare a holiday on the recurrence of the anniversary of the Mussel Slough tragedy. His Excellency should keep his official and political weather eye peeled for such chances to make capital. He should show himself to be a "smart politician," or leave the field and learn a new trade.

The Judge says: "There is no Socialist, no tramp, no idler, no thief, no lyer or breaker of any kind who does not rejoice over the existing difficulties between labor and capital." The Judge might have added to its list the demagogue in politics who attaches himself to every movement which can afford the hope of office.

Hugo Most, the sanguinary Anarchist, who is in hiding for prudential reasons not wholly unconnected with his personal safety, writes to the New York District Attorney that he would obey a summons if he could be assured that Recorder Smyth would not be allowed to sentence him. It is a high compliment to an official to have earned the dread of such fellows as Most.

The Democratic press to the contrary, the Republican press or Republican politicians are not spending much space or time in denouncing Jefferson Davis's speeches or the ex Confederate demonstrations. The Grand Army, composed of men of both parties, are most indignant. The Democratic organs may say what they will, but expressions from men who are in no sense active Republicans show that the public reappearance of Mr. Davis has provoked hostile and quite general criticism.

What is the wisest thing for the county to do with its property, the old courthouse and the remainder of its share in the block on the north of Temple street? There is enough of it, properly handled and disposed of, to produce a sum sufficient to build the new courthouse, and thus avoid the necessity of levying a dollar's tax, or issuing a single bond. Here is a chance for the display of some good business management and financial *sabio* on the part of the Supervisors.

Senator John Sherman, who, more than ever since his visit to California, takes a kindly interest in Los Angeles, has recently expressed himself, in private letters received here, as favorable to the legislation now pending in Congress for our benefit, and he has promised to give it his powerful aid. Mr. Sherman is relied upon to render substantial assistance in the needed work of overcoming the scruples of his Senatorial associate, Mr. Edmunds, of the Judiciary Committee, who needs to be convinced that the southern counties have enough legal business for adjudication in United States courts to justify the creation of a Southern California judicial district.

Why should not the new Federal building, which is going to be erected one of these days, occupy a place alongside the new courthouse that is to be? It is a fair question to be fairly considered. And possibly there is room on the same site for a new city building? The three buildings built together and yet separate, on a comprehensive and symmetrical plan, would make a massive and imposing structure, one of the noblest in the country, if properly planned. These are points worthy of thinking of by all concerned, which means all the people of Los Angeles city and county. A strong argument for the concentration of these buildings lies in the fact of the convenience it would afford in the transaction of public business. A person having business with Uncle Sam, with the city of Los Angeles, and with the county of Los Angeles, all at the same time, which is not infrequent, could do that business with much greater facility if the offices named were concentrated in a union block, than if they were scattered in three different quarters of the city.

BRIBERY.

One of New York's Crooked Aldermen

ON TRIAL FOR THE BROADWAY STEAL.

History of the Methods by Which the Surface Railway Obtained its Franchise —Sensational Testimony.

Associated Press Dispatches to The Times.

NEW YORK, May 14.—The taking of evidence in the trial of Alderman Henry W. Jaehn, charged with having accepted a bribe of $30,000 to vote in favor of granting the franchise to the Broadway Surface Railroad Company for running cars on Broadway from the Battery to Fourteenth street, was begun to-day.

J. T. Twomey, Clerk of the Board of Aldermen, testified that Alderman Jaehn voted to grant the franchise.

Alderman Charles B. Waite, who presided at the memorable meeting and who recently made a voluntary statement, concerning the granting of the franchise, to the authorities and has also been kept a prisoner in the house of the Assistant District Attorney, said that he was interested in the Broadway franchise, and did what he could to push it on account of his friendship for James A. Richmond, its president.

James Lyddy, who on August 25th, procurred an injunction forbidding the Aldermen from proceeding further in the Broadway matter, testified that he brought suit against the Broadway Surface road for his brother, John H Lyddy. On August 29 he gave his consent to a discontinuance of it. There was no money paid to him for the release, but there was $12,500 paid to his brother, John H Lyddy.

Police Inspector Byrnes, who played upon Jaehn's confidence and got him to make the damaging admissions which led to his arrest, was sworn and told the story of how he worked himself into Jaehn's confidence in Washington at the time of President Cleveland's inauguration. Jaehn told him that Billy Maloney, reading clerk of the Board had made $100 000 to $150,000 because he "had had died all the money and was not the man to do it for nothing." In 1885 witness had several talks with Jaehn. In the latter part of August, 1885, they talked about the Broadway Railroad, and witness told defendant that they (the Aldermen) if they were going carefully, would all be sent to prison through Maloney, who was going around talking about the money he had given them for their votes. Witness had had another conversation with defendant at the city hall a couple of days before the Aldermen testified before the Senate committee. Jaehn said they were in a dreadfully bad state. Witness told defendant he had told them (the Aldermen) that they would get into trouble through his evidence; but any way he could serve them he would be glad to do so. Jaehn asked him to find out what District Attorney Martin was doing and whether there was going to be any indictment. Witness told him that Watts, Graffe and Miller had been promised immunity. Jaehn visited him at his house by appointment that evening and in further conversation said he (Jaehn) knew and knew that he did business with Maloney. He belonged to the original combination of thirteen Aldermen formed in the early part of 1884, which met at Graffe's office, Broadway and Pine, at McLaughlin's house, when railroad matters were talked over. At one meeting there it was stated that each of the twenty-four Aldermen would receive for the Broadway franchise would receive $20 000 for their votes. It was to be paid in cash on the day the franchise was finally passed. Alderman Maloney that he needed some money, and the latter answered that he would find it in his box. He did find there an envelope containing one ten thousand dollar bill, and ten one thousand dollar bills. The aldermen, he said, got their money in different ways; some at the City Hall, some in barrooms and all around. Witness suggested that if Jaehn could get some facts implicating Watts, Tuigraffs and Miller he could go to the grand jury and have the indictments thus head them off. Jaehn thought that a good idea and said he could do it if he could make connection with Maloney. Witness asked whether Maloney had left the money he was to distribute in his (Jaehn's) safe one night, the latter admitted it, saying that Maloney came to his store under the influence of liquor and he took charge of the money for him. On the following Wednesday witness made arrangements to meet Jaehn at home to his office. Jaehn came, and Byrnes arranged matters so as to have the conversation carried on within the hearing of two of his detectives secreted in an adjoining room. Jaehn began by denying the rumor that he intended to run away, but admitted that he had spoken of doing so to a man named Harvey. Harvey, Jaehn had been unable to make connection with Maloney. Witness then asked him if he was sure that each of those who voted for the Broadway franchise got $20 000, and he answered that they had. Jaehn, in a short time, looked at his watch and said he had an engagement up town. The next day the witness arrested him.

The Inspector was cross-examined at some length, the general purport of the questions being to throw discredit on him as an officer.

Detective Cosgrove, one of the men who overheard Jaehn's admissions, corroborated the Inspector's account of that interview.

NATIONAL NOTES.

The House Committee Rejects the Proposed Measures.

WASHINGTON, May 14.—The House Committee on Postoffices and Post roads, has agreed to recommend nonconcurrence in the senate amendment and that appropriating $8000 for pay of the postal-car service, added by the Senate to the Postoffice Appropriation bill. All other Senate amendments are concurred in. All the Democratic members of the committee voted against the subsidy amendment, and all the Republican members, except Gunther and Wakefield, for it.

THE CRAWFORD INVESTIGATION STIFLED.

It is not likely that the Department of State will make any further investigation of the killing of Capt. Crawford, for the reason that the consular officers have no facilities for obtaining accurate information on the subject.

CONFIRMED.

The Senate to-day confirmed S. T. Houser as Governor of Montana and W. Leigh, of San Francisco, as Receiver of Public Moneys.

A SARCASTIC PETITION.

Among the petitions in the Senate to-day was one from a dozen citizens of Iowa, presented by Allison, and praying for the abolition of "the American House of Lords." Referred.

Careless Use of Dynamite.

PITTSBURG, May 14.—An agent of the Atlantic Dynamite Company was employed this morning to break up a lot of iron stored on the vacant ground where the Republic Iron Works were. He commenced work on a ten-ton anvil, and used an immense charge of dynamite for the purpose. A terrific explosion followed, and huge pieces of the anvil were scattered about in every direction, and wrecked several houses. The only person injured was James Acton. He was struck on the leg with a fragment, and the limb was so badly injured that amputation was necessary. The agent was arrested.

Scared Hi- Homestead.

SAN FRANCISCO, May 14.—The case of the Southern Pacific Railroad vs. Joshua Conaway was yesterday discussed in the Circuit Court on motion of the plaintiff. Conaway was a homestead settler upon an odd numbered section of land in Ventura county, which the railroad held as reserved. He claimed that he had been upon the land prior to the issuance of the grant to the railroad.

Fatal Boiler Explosion.

COLUMBUS, O., May 14.—The State Journal's Caldwell special says: James Brown's sawmill boiler exploded at Shoveltown killing Lotay-tte Tuttle, Eli Hall and Lewis Bates, and fatally wounding James Herron and Nathan Decker.

THE TURF.

Huggins's Son All Wins the Kentucky Derby—Other Races

LOUISVILLE, Ky., May 14.—Derby day has come and gone, and by all who saw it has been put down as a great turf event, successful in every respect. The weather was very warm. The track was good and fast, and the attendance was the largest seen in Louisville in many years. In the free field the crowd was simply immense. They were good-natured, but it required great labors on the part of the police. Betting was very good. It was confined to auction and French mutual pools, bookmakers declining to pay the sum required for the privilege by White & Co., the lessees.

First race was for the Louisville Ladies' stakes, five eights of a mile. At the start, which was excellent, Wary and Jennie T. were the first to show in front. Jennie T. soon taking the lead followed by Wary was not headed, Jennie T. winning rather easily by one length; Wary, second; Ben Nail, a very close third. Time 1:04¾.

Second race, one and one-fourth miles—Red Girl took the lead; Susie Forbes second, two lengths in front of Modesty, third. On the back stretch Modesty went to the front, Aretino second, Hattie Carlisle third. On the stretch Hattie Carlisle took second place, Modesty was easily headed and won easily by half a length; Hattie Carlisle second, Aretino third, three lengths off. Time, 2:11¼.

Third race, the Kentucky Derby, one and one-half miles—Starters, Free Knight (Fitzpatrick), Masterpiece (West), Blue Wing (Garrison), Lizzie Murphy, Ben Ali (Duffy), Jim Gray (Withers), Sir Joseph (Conkling) Grimaldi (Lewis), Lafitte (Stoval), Harrodsburg (J. Riley), 118 each. Non-starters: Ban Fox, Silver Cloud, Bewing: Ben Ali $500. Free Knight $375, Blue Wing $275, Jim Gray $125, Masterpiece $75, field $150. An excellent start was made without delay, Blue Wing; Grimaldi and Masterpiece, as named, showing in front. In a short distance Masterpiece went to the front, soon having a lead of three lengths, Harrodsburg second, Ben Ali a length ahead of Grimaldi, third. Grimaldi dropped back at the stand and Jim Gray moved up even with him. On the back stretch the leaders were coming back, Jim Gray showing a trifle ahead, in front of the half pole Harrodsburg, Masterpiece and Free Knight were closing. Masterpiece went to the front

ENLARGED SHEET

SATURDAY, MAY 15, 1886.

The Board and Bailey's Bills.

In the report of the Bailey bills business in Thursday's TIMES the following paragraph occurred:

It was claimed by Mr. McFadden and a number of the physicians of Santa Ana that this matter is creating wide-spread interest and excitement down there, while upon the part of Dr. Bailey and the Supervisors it was claimed that the whole matter is merely a prosecution for the making of political capital.

A typographical error in the above makes the statement much broader than it was designed to be. The reporter wrote "the Supervisor" (meaning Ross) not "the Supervisors," which would mean the Board. There was nothing in the action of the Board, as a Board, to justify the inference that they took sides with Bailey, or departed from their duty, which is to judicially and thoroughly investigate the grave charges of crookedness brought before them. Their previous rejection of Bailey's $2000 bill shows their attitude towards such fraudulent claims. James McFadden has done a public service in bringing this matter before the Board and in standing up like a man to all the responsibilities devolving upon him in the premises. Supervisor Ross courted the investigation, and there is no proof that he was in dishonest collusion with Bailey; but his action in giving rein to the charging *medico*, to the extent that he did in the matter of permitting him to run up unauthorized and extortionate bills, is culpable. The investigation ought to go on to the end, and the blame be planted where it belongs, and planted deep.

THE Vicksburg Herald, which declared, a year ago, that the shooting of a few of the white leaders of the colored voters would be a good thing, and which applauded the assassination of Matthews, now says:

"In calmly reviewing the few sentences of Jefferson Davis's speech, we are forced to acknowledge that he said things that manifest less folly than he said, and did not say some things which he, of all men, ought to have said. There was no occasion for him to say that Alabama did not seek the war, and we do not think it sounds just right, with ex-Confederates in the Cabinet, in Congress and in many of the most important offices, to assume that Southern men are "wrapped in the mantle of regret," only half free, and somewhat expectant of constitutional liberty yet to be secured in some unknown way. His utterances represent his sentiments about what was once the great object, the one impulse of his being, and he can never free himself from them. He is not of the South as is of the South, and South. The logic of events has convinced the tolling millions around him, but to the end he will be the one unreconstructed.

This change of sentiment is encouraging and significant. The Vicksburg Herald's candidate for postmaster is, however, one of the Herald's publishers, and is awaiting confirmation.

"It has been denied that Jefferson Davis claimed that his cause was not lost. It was at Auburn that Hon. Hoke Smith, in introducing Mr. Davis, said: "Ladies and gentlemen, we have here the most beloved of our countrymen, the living representative of the lost cause, cause so dear that for it, it was well to shed so much of the blood of our brothers and sons. I present to you Mr. Davis."

Mr. Davis, bowing, said: "You have heard of the lost cause. *It is not lost It will live again. It is not dead, but sleeping.* The truth can never die, and no cause can be lost while the fair women of the land smile upon it."

"GHOST" writes to the TIMES declaring that Jeff Davis's sickness at Beauvoir was caused by another ghost—"the ghost of a starved Union soldier of Andersonville come to him in his dream, protesting against his display of treason, which he so anxiously wished 'the children of the South' to remember." This is probably true, but ghosts, when writing to this paper, should send their real names—not necessarily for publication, but as a guarantee of good faith. Spooks should also not forget to inclose stamps for the return of rejected manuscripts. It is the custom of the country.

THE Louisville Commercial (Rep.) protests earnestly against the treatment of Jeff. Davis's speeches as an expression of Southern sentiment, and says that Davis "does not represent the people who have grown up about him." This is the view which we have preferred to take. At the same time, it must be admitted that the most disquieting thing about the recent demonstrations has not been Mr. Davis's fulminations, but the extraordinary enthusiasm aroused by them among great masses of people.

THE South is proudly bringing forth all sorts of relics of the lost cause. Old furniture and old men are greeted with fond recollection. One proud possessor of relics claims the greatest value for an old looking glass which once reflected Jefferson Davis and his family. As the story is told, Mrs. Davis stepped near the mirror, Mr. Davis seized his child in his arms and the family group was reflected. The owner of the mirror does not realize the pathos of the tale.

THE Missionary Herald knows of a certain local Governor in Turkey whom the people desire to keep in office for the singular reason that, if he were deposed, he would certainly take up robbery as his profession, and they would rather support him as their local ruler than as the head of a company of brigands. It must be upon some such principle as this that New York selects her aldermen.

THE Democratic members of the Ways and Means Committee are very solicitous for the whisky making industry, but they are very desirous to inflict injury upon the useful industries of the country.

NEIGHBORHOOD NEWS.

LUGONIA.

MOWING BY THE LANTERN'S LIGHT.
[Correspondence of the TIMES.]

LUGONIA, May 13.—The bridge across the Santa Ana river is at last repaired, and the people at the end of the valley are happy again, because they can now drive to the city without wading through a long stretch of sand in the river bed and then fording the stream, as they have been obliged to do ever since the bridge went down during the flood of January last. We are always thankful for small favors, but they would be more highly appreciated if they were not so long delayed. This time our hopes were deferred till our patients were sick.

The Congregational Association of Southern California is now in session here; quite a large number of delegates being present from various parts of Los Angeles county, Ventura county, San Diego and San Bernardino counties. The meetings are well attended by both delegates and citizens. Much interest is being manifested in the work, and good results are expected from the session.

The click of the mowing machine is getting to be a familiar sound in all the rural districts, as the haying season, which has been considerably delayed by unfavorable weather, has now come on in earnest; and, in some cases, mowing machines have been run nights, with a lantern attached to the machine in such a position as to throw the light ahead of the horses. Many fields which were intended for grain lodged so badly that they have been cut for hay. There will be an immense quantity of grain hay this season, and it is now selling for $5 a ton in the field. Horses and cattle may well be jubilant over the prospect.

Several of our county papers are at present engaged in a wordy wrangle over the location of the new railroad buildings. It may be a source of satisfaction to the proprietors of these journals to fill their columns with venomous attacks upon each other, but it is getting to be monotonous to most of their readers, and the sooner they can find something of a more interesting nature to place before their subscribers the better they will like it.

The spring term of the public school here closes this week; and as one of the children remarked a day or two since, "they will have time to forget all they have learned before it begins again."

We understand that the people of Highlands, on the north side of Santa Ana, opposite Lugonia, have broken ground for a new Congregational church building which they have long felt the need of.

C. H. L.

ROSEDALE.

ROSEDALE, THURSDAY, May 13, 1886.—The outside world seem just beginning to discover what has been long evident to the loyal residents of this neighborhood, that Rosedale is the most delightful suburb of our beautiful city. A boom, not starte : by ourselves, but coming in the natural order of events, has already instigated changes which were only looked for in the distant future. Several tracts have been divided into small lots and sold with remarkable rapidity, as the Urmston Tract, Freeman Tract, Davis Tract, and Gerbutt Tract, while several others have been put upon the market. There have been more transfers of real estate in this district during the past three months than during the previous five years. Electric lights have been stretched, some of the old streets have been finely graded, and several new ones opened. Many improved places have also recently changed owners, some of them at prices which would not have been thought of a year ago. At one time it almost looked as though the incoming tide of immigration might sweep us all away. Among the faces of those leaving us who will be generally missed are those of B. Bradley and his pleasant family, who have occupied the Major Kinley place for two years.

To one standing upon the ridge which crosses Washington street near the school house, there is spread out before the eye one of the most beautiful prospects to be found in Southern California. To the north lie the grand old hills, of which we are now getting ready to the east, the location of the city which is creeping over the hills; to the south, as far as the eye can reach, stretches out the plain, covered more and more thickly as the years go by, with beautiful homes, and to the west, the glorious land yet to be possessed, as the march of civilization pushes onward toward the sea.

The annual pilgrimage to Santa Monica has commenced, and the tide of travel thither is increasing day by day.

The street railroad enterprises which have been so actively discussed for several months, begin to assume more definite shape. I hear it positively stated that the new line through Washington street, for which a franchise has just been secured, will extend to Rosedale Cemetery, with a branch running via Vermont avenue to Hotel Station on the Santa Monica Railroad. OBSERVER.

ORANGE.

[Correspondence of the TIMES.]

ORANGE, May 13.—The camping season has begun.

Work on the Plaza has commenced, and the trees standing where the new road is to run are being taken out root and branch.

Our smooth roads, free from dust, are appreciated; and riding for pleasure is a fashionable recreation.

The Orange public library and reading room on the postoffice building, cared for by B. E. Toner, is well kept, well patronized and in an excellent condition. Those who own books are moving their hives to the mountains, but still large numbers are left, as the little creatures will go into the woods in search of honey if crevice where an entrance may be found, and it is almost impossible to dislodge them; besides the foothills are swarming with these busy insects.

The $5000 bonds voted by the district, added to the $5000 insurance, will give us a fine school building. As a precaution against fire, the trustees have decided to build of brick, though some object on the grounds that it is much more expensive and, being more damp, not as healthy as wood; and also say that an incendiary could break a window, pour coal oil around and burn the whole, except the brick walls and these would then fall in and become useless.

J. P. Botting, one of the party who went to the Chicago Citrus Fair with the orange exhibit, has returned home looking well and hearty.

Mr. Taft is building a fine large house on his ranch near the Orange flour mill A.

FLORENCE.

[Correspondence of the TIMES.]

FLORENCE, May 13.—Haying is progressing finely and the yield will be good, but there is an immense quantity consumed in the country and city, and there is but little old hay held over from one year to another.

There is not much show for tramps to ply their trade with the excuse that there is no work to be done in these parts, for nearly everybody is pressed into service and the demand for laborers exceeds the supply.

There is some talk of a drug store being started at Florence in the near future.

The Ladies' Aid Society propose having a strawberry festival at the Florence M. E. Church to-morrow (Friday), evening.

By a slight oversight M. Serrot's name not mentioned in my notes in connection with his wife's name on their departure for the East a few weeks since. Mr. S. doesn't like to have his wife's name published to the world that she is the only and the better man of the twain. They arrived home "safe, sound and happy" on last Saturday.

Mr. and Mrs. E. S. Waite desire to express their thanks through the TIMES to all who rendered them kindness and substantial assistance since their loss by fire. The people seemed to fulfill the Golden Rule. J. F. C.

The Ohio Idea.

To the Editor of the Times—SIR: Allow me to ask why it is that our Republican Council or the committe they appoint to have charge of the Public Library are so partial to Democratic New York City and entirely neglect the State of Ohio with all its Republican forces. There is not a Republican newspaper from Ohio in the library newspaper reading room, while the Democratic newspapers from New York city grace the desks, one of these being lately added. The Cincinnati Commercial-Gazette, a true and clean Republican paper, is called for by the

OHIO READERS.

A SHORT ROUTE TO UTAH.

The Utah Southern and its Extension.

[Correspondence of the TIMES.]

SALT LAKE CITY, Utah, May 10, 1886.—Arriving at this metropolis of the saints yesterday, and being somewhat limited in time, I immediately commenced to make inquiries regarding railroad communication between this point and Southern California; and why the present Utah Southern, now completed 250 miles southerly from this city, had stopped at that point so abruptly. Meeting many of my old friends and acquaintances and prominent business men here, among whom may be mentioned John Sharp, now one of the directors of the U. P. R. R.; Major G. S. Erb, Henry W. Lawrence, Gen. P. Edward O'Connor, Col. Pack ard and others, I learned that why the road had not been pushed forward, was more from a want of a true knowledge of the topography of the country in tervening between the present terminus, to the mineral resources, the distance to a junction with the Mojave branch, and the amount of traffic that would inevitably seek markets over this shorter route. Explaining the situation to them by hasty diagrams, and otherwise, giving distances, grades, etc, that I obtained in my mining explorations from 1864 to 1874, all through that region, they at once saw the great advantage to be derived by closing up this short link of 300 miles. The distance saved to the orange-grower the present season would be more than 500 miles on all that went over the northern route. And, aside from affording a shorter route to Utah, Montana, Idaho, and all northern markets in this direction, the return cars would come to us loaded with coal and coke, the first of which so abounds all through Southern Utah. Of course the mutual advantages to be derived were too apparent to need discussing. Leaving, also, that the U. P had an agent here, I at once sought him out, and during our interview arranged to meet him with others, including their superintendent, at Omaha, on next Thursday, the 13th, to present the whole subject I leave here this morning for that destination.

Would like to give you some items on the Mormon question that I have never seen in print, but will defer that until some future time. In haste,

O H CONDAR.

Piles! Piles! Piles!

Sure cure for blind, bleeding and itching piles. One box has cured the worst cases of ten years' standing. No one need suffer ten minutes after using this wonderful Kirk's German Pile Ointment. It absorbs tumors, allays the itching at once, acts as a poultice, gives instant relief. Kirk's German Pile Ointment is prepared only for piles and itching of the private parts, and nothing else. Every box is warranted by our agent.

Sold by druggists; sent by mail on receipt of price, 50 cents and $1 00 per box.

Dr. Henley's Celery, Beef and Iron, used before meals, creates a healthy appetite.

Electro-Magnetism, the New Means of Cure.

Dr. E. Robbins's Electro-Magnetic Institute, corner First and Spring streets, entrance on First st.; is now fitted up, at considerable expense, with every thing that is necessary to cure chronic and so-called incurable diseases, by the finest electrical apparatuses in the world, Turkish and Russian baths; also electric sulphur baths. Dr. Robbins has had several years' experience in the North Main st. Hotel, San Francisco, Salt Lake City, Denver, and three years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity in curing the worst cases of chronic diseases when all else had failed, and therefore all persons suffering should try this new remedy before abandoning all hope. After every treatment the patients are treated with the Massage treatment, by persons of their own sex. The doctor diagnoses disease without explanation from the patient, free of charge. His office hours are 8 till 12, 1 to 5.

The Foreign Physicians.

The most eminent German and English physicians are now recommending celery for neuralgia. Try Dr. Henley's Celery, Beef and Iron.

Iron Sulphur Springs.

Thirteen miles' drive east, near the ostrich farm; pleasant health and pleasure resort, located on high mesa land. Hot mineral baths, equal to Hot Springs of Arkansas. Mineral waters remarkable for cure of rheumatism, diseases of stomach, kidneys, skin and system. Fine shade and cattle may well be jubilant over the prospect.

Several of our county papers are at present engaged in a wordy wrangle over the location of the new railroad buildings. It may be a source of satisfaction to the proprietors of these journals to fill their columns with venomous attacks upon each other, but it is getting to be monotonous to most of their readers, and the sooner they can find something of a more interesting nature to place before their subscribers the better they will like it.

Pyle's Pearline has become a standard preparation for laundry use. It cleanses the most delicate fabric without injury and without the tedious scrubbing of ordinary washing. Beware of imitations. Ask your grocer for it.

OFFICE OF THE TIMES,
LOS ANGELES, Friday, May 14

Advices from Chicago report California Oranges in good demand; Pasadena, Duarte and San Gabriel seedlings selling at $2 @$3 50.

The shipments of Oranges for this week from Southern California were about thirty car-loads. There remain between seventy-five and one hundred car-loads yet to be sent. The last of the crop will be sent by small shipments, in order to secure fancy prices for producers.

Shipping News.

In the last four days three British ships have arrived at San Pedro from Sydney, New South Wales: The Cambrian, Capt Bennington; the Mistley Hall, Capt. Elwert, and the Aberfeldy, Capt. McDonald. They are all new iron ships, and bring, in the aggregate, nearly 7,000 tons of Coal.

Twenty British ships are now loading for or are on the way to San Pedro. The British shipping alone will exceed thirty-six ships this year, an increase of ten over any previous year, and of twenty-five ships over the number last year.

Stocks and Bonds.

By Bagwell & Fox, Bankers.

NEW YORK, May 14.—Government bonds dull and steady.

The uncertainty in regard to the forthcoming statement of New York Central, Lake Shore and Nickel Plate, and its unfavorable statement of earnings of the St. Paul, published lately, make all the stocks weak at the opening to-day. The remainder of the session will be very quiet, and the market will not vary more than 1 per cent. of last night's closing figures, but the market was weak from opening to close with hardly a day during the month. The market in general is evidently holding but one for sales.

Real Estate.

NOTICE TO

BUYERS AND SELLERS

—OF—

Real Estate.

A great many to whom this article refers, imagine they can save money by avoiding even the best posted and most reliable Real Estate Agents. We know of many instances where the economizing, cautious buyer, having quietly hunted up his own purchase, paid double the price that we could have sold him equally as good property adjoining, owned by parties who must sell.

Inexperienced men are constantly going in and out of the real estate business who make a failure from a want of a knowledge of it. They often unintentionally mislead buyers into bad speculations; while many of the irresponsible, speculating outsiders or brokers, having no office rent to pay, and avoiding the lawful license, will advise the buyer into any kind of speculations to make commissions, or will try to break up any sale where they are not interested. Many new-coming purchasers can testify to this after they see their mistake.

We have been in the real estate business for over twenty-five years, and claim to be thoroughly posted as to values, and a general knowledge of the business in every detail, and b lieve that there is no place where a full knowledge is as important as in this county, with its various kinds of soil, and short distances, affected by climate, altitude, and location.

We do not take property for sale held above its market value. We are, therefore prepared to lay before the buyer all kinds of city or country property as low, if not cheaper, than they can be had elsewhere, and some at great sp culations. We cannot recall to mind, within the last two years, a single instance where the purchaser bought on our judgment, that he has not received, or could get, an advance from ten per cent. per annum to three times its cost.

If required, we can give as reference some of the best business men and firms of this city, as to our business standing and manner of attending to the same.

The Man Who Killed Eldridge Must Stand Trial.

The examination of Ocaña on the charge of murder was concluded in Justice Rainey's Court yesterday, the defendant being held. In a drunken row in the Electric Light saloon, Upper Main street, on Easter Sunday (April 25th), Ocaña stabbed Eldridge, the keeper of the place, in the right temple, his knife piercing the skull and entering the brain two inches. The evidence went to show that Ocaña followed Eldride up and crowded him against the wall as he inflicted the fatal blow. Eldridge lived a week after the tragedy, his left side being entirely paralyzed.

The San Gabriel Valley Extension.

Adjourned until June 7, at 10 a. m.

ARIZONA APRICOTS.

A Possible New Feature in the Fruit Market.

Prophet Potts left at the TIMES sanctum yesterday a little box of ripe apricots. They are two weeks earlier than the first apricots generally imported from the upper country, and a full month earlier than those which ripen here. Mr. Potts's fruit was grown in the Salt River valley, near Phoenix, Arizona. This is the section about whose fertility, water supply and general resources so much has recently been said. Mr. Potts holds that, if the fruit can be produced there so much earlier than in California, there is a good thing in growing it. In conjunction with his brother, he has made arrangements to plant thirty acres near Prescott, and has shipped trees from here for that purpose. He plants mostly of apricots.

Mr. Potts recalls the time, in his pioneering days, when his brother-in-law drove out to the Territory with a four-horse team, taking forty bushels of apples as his cargo. The fruit was sold in and near Prescott at 40 to 50 cents a pound, and the venture netted $300. The trip out and back required about six weeks.

The prospects, in view of the Salt River development in the Territory, will some day send back a Roland for our Oliver, supplying this section with early high-priced fruit.

Another Legitimate Land Sale. Wait for This Opportunity!

The Southern California Land Company will soon place before the public another SPLENDID TRACT. *Level with Main and Spring streets, and in the heart of the great improvements of this city.* This real estate firm deals only in legitimate homesteads, sold with all the valuable improvements placed upon them; hand some residences, graded streets, substantial sidewalks, water lights, etc., etc., direct to the subscribers and the division made by the subscribers themselves, through their own committee, in accordance with the homestead rules of this and many other States.

Only these lots are included to be offered will be placed, as usual, at the bed-rock owner's price without extra profits of middle men, and at about half the price of Pasadena, East Los Angeles, river-front and mountain-top lots. These splendid lots front on leading streets, Eleventh, Twelfth, etc., and are surrounded by fine residences. The public are advised to wait for their opportunity. This same firm has platted the Childs Tract Homestead, where lots are now selling at a very large advance, many of them treibling in price; also the Columbia Colony placed at $1250 per share last December now valued at $4000. Also the Urmston tract, already selling at a handsome premium, and the one now to be offered, we may safely say will double in price before 1887. The day that the books open will be the record more than one-third of the subscriptions, and four days will, doubtless, close out the new offering. Monthly instalments without interest will be the terms.

A Growing Industry.

The experimental tests that have been made for nearly two years past in both the largest and smallest steam power using establishments prove to them conclusively the economy of crude oil, as obtained from the wells of Los Angeles county, in connection with the Edwards (steam) Oil Burner. This valuable invention inaugurated and made a success of the efforts which have been followed by the great increase in the use in this city and county and the Pacific coast. The Los Angeles Oil Burning and Supply Company, as the owners of this valuable patent, are now prepared to furnish it for small or the largest steam boilers, and investigation or reference to the list of users, given below, is invited. This company is also agent for the supply of crude oil, and is prepared to furnish the same delivered at any point in Los Angeles or Southern California, at the shortest notice and lowest rates. The steam burners with latest improvements, will be attached to any furnace or boiler, and the company's men sent to put them in complete running order.

Establishments using the hydro-carbon or steam burner: Electric Light Works, Los Angeles Mills, Los Angeles Steam Laundry, Los Angeles Paper Co., Hamilton & Shumway, East Los Angeles Pottery, California Fruit Crystalizing Co., Excelsior Laundry, Atlas Milling Co., Bernard & Benedict, City Ice Co., Philadelphia Brewery. The office of the company is located at 111 West First street.

Quick Sales.

The demand for lots in the Norton tract indicates the speedy sale of the entire number. Both at home and abroad they are spoken for singly and in quantity. Those who are in search of a home adjoining both city and country, as well as those who would add to their wealth in the future, should fully investigate the claims we make in favor of this property. To such, the inducements are as clear as the noonday sun. We present every possible facility to enquirers. Apply to rooms 31 and 32 Nadeau block.

Hubbard Tract.

If you want a lot in the Hubbard tract, call at 104 S. Spring street to-day at 10 a. m. and we will take you to the tract free and sell you a lot on the installment plan; first payment $30, deferred payments $10 a month; no interest. Apply to Vinton L Mitchell, or to Chas. Victor Hall, 104 S. Spring street.

The Word Contest.

A correspondent inquires about "that word contest," in which an invitation was extended to the public and the school children by Dobinson & Fairchild to make the largest number of words out of the name "Mutual Life." The TIMES is informed that the number of lists sent in for the competition was largely in excess of any anticipation; that they are in the hands of the committee on awards, consisting of Messrs. F. A Gibson and F. H. Howard and Judge D. M. Adams. These gentlemen are giving as much time as they can spare to the examination, and the prizes will be paid immediately upon their award being made. It will probably be at least a week before they can arrive at any result.

THE PRACTITIONER.

Contents of May Number—Shot at the Medical "Step Brothers."

The May number of the Southern California Practitioner is out, and, as usual, it is brimful of good things from a professional standpoint. The table of contents is as follows: "General Anæsthesia and agents producing it," Dr. Will L. Wade; "Mind Cure," Dr. J. P. Widney; "Phthisis Pulmonalis," Dr. John C. Kerr; "Permanganate of Potash in Carbuncle," Dr. C. M. Fenn; "A Stranger in Los Angeles," Dr. G. A. Wood; "Valuable Hints; Removal of Foreign Bodies from the Eye; The Opium Habit; Cellulon Tape Worm," by Dr. R. E. Curran; "Oxygen as a Therapeutic Agent," by Dr. H B. Lathrop; "Clinical Lecture—Osteosarcoma of Inferior Maxilla," by Dr. H H. Maynard. The departments, Selected, Editorial, Translations, Book Reviews and Placeboes, are very full.

The following, from the April Practitioner, is dedicated to the Homeopathists:

OUR STEP BROTHERS.

We are glad to find so many of our Homeopathic step brothers on the subscription list of the Southern California Practitioner.

Step-brothers sometimes quarrel.

It is foolish to do so.

People cannot agree in politics, religion or medicine.

Let them disagree peaceably and in order.

Homeopathists in Los Angeles appear to us to be able to take care of themselves. They do not expect, ask, or so far as we know, want the members in good standing of the regular profession to consult with them.

A consultation between a Homeopathist and a regular is a fraud.

You might as well put a devout Roman Catholic and a zealous Methodist to work trying to save the same soul.

That poor soul would perish between Scylla and Charybdis.

Never waste your time talking against those who disagree with you—

Unless you are in a political campaign.

Even then there is more efficacy in mules—judiciously used.

A COURT EPISODE.

A Juror in the Kalkman Case Says He was Approached.

An episode that bade fair for a few moments to create a sensation occured in Department One of the Superior Court, yesterday morning. As the trial of John Kalkman for robbing Charles Worth was about to be resumed, one of the jurors in the case, A. J. Towner, informed the court that he had been improperly approached on the day previous by W. W Weed, a stenographer. Mr. Towner was sworn and related the circumstances of the affair as follows: Weed met him on the day before and inquired whether he was a juror in the case. On receiving a reply in the affirmative, Weed informed him that he (Weed) was interested in the case of one of the parties implicated with Kalkman in the robbery charge, and that $100 would be no object.

Weed was sent for and came into court palpably suffering from a prolonged spree. He stated that he had no remembrance of ever having conversed with the juror on the matters sworn to by the latter, and declared that he had never had any design to influence the juror. It appeared that Weed had been on a protracted spree and was not in a condition to be held responsible, and the Court allowed the matter to drop. It came up again, however, rather awkwardly, at the close of the trial, when after the jury had found Kalkman guilty, the latter's attorney gave notice of a motion to set aside the verdict on the ground of "the conduct of the juror."

WEATHER REPORTS.

Gen. Hazen Can't Comply Just at Present.

It will be remembered that, some weeks ago, the Board of Trade committed to its Meteorological Committee the duty of communicating with Congressman Markham and Gen. Hazen, Chief Signal Officer, with the object of obtaining, if possible, daily weather reports from all principal points on the southern overland railroads. These reports, it was thought, would be of especial service to the shippers of oranges during the season when their cargoes were most susceptible to damage by frost.

A memorial was duly forwarded to Congressman Markham, to be submitted by him to Gen. Hazen. In response to this, he has received a letter from Lieutenant Board of Trade, under date of May 6th, Gen. Hazen says:

"I have the honor to inform you that, while it would afford me pleasure to comply with the request of your Meteorological Committee, I am not authorize the desired reports sent you, as the appropriation at present available is barely sufficient to perform the work now in hand during the remainder of this fiscal year. If, however, the new appropriation will admit, the matter will be considered. After July 1st, 1886, write in view of having you furnished with the reports requested."

Now is Your Chance for Bargains.

BRIEFS.

The steamers Santa Rosa and Los Angeles sail for the north to-day.

A marriage license was yesterday issued to John McDonald and Teresa Milanese.

The wife of Andrew Rubio, who had been sick nearly a year, died at 8 o'clock yesterday morning.

Quite a delegation from Prince Edwards Island were registered at the Grand Central yesterday.

The wagon of Madame Duflot, the renowned clairvoyantess, was at the Southern Pacific depot yesterday, awaiting shipment to San Diego.

The train from the north was five hours late yesterday, caused probably by an engine getting out of order on the upper division.

There are no tidings from Tom Downey and Allie Booth, the youthful couple who eloped together last Sunday. It is supposed by some that they took steamer for San Francisco.

There are messages at the Western Union office, 17 N Main street, for Rev. H. T. Edwards, W. R. Chandler, Ed. B Selver, Tamey Caruthers, B. S Reese, Mrs. E. Partridge.

The trial of John Kalkman, charged with having attempted to rob Charles Worth, near the Sisters' Hospital, some weeks ago, was concluded before Judge Cheney yesterday afternoon, the jury finding Kalkman guilty as charged.

Captain Darcey, who came down from the north Thursday, says he saw Patton of the Herald, at Bowman station, enjoying his pasear immensely. The scribe had shot at an antelope and missed it (of course), and was looking as bronzed as a Hoosier.

A Chinese funeral was one of the proceedings of interest in upper Los Angeles and Arcadia streets yesterday. About 4 o'clock, after the usual heathenish rites had been performed, a cavalcade consisting of a hearse, with the remains, a wagon of funereal meats and a hack full of mourners started for Evergreen Cemetery.

Officer Poyoreno, of Old Los Nietos, who had such a close call a few weeks ago, was in the city yesterday. The wound in his left arm from the desperado's bullet is healed, but the arm is still weak. Mr. Poyoreno retains his watch, with the forty-four calibre bullet imbedded in its vitals, which was the means of saving his life.

ONE OF THE BELL CASES.

It Goes Over Until Next Tuesday.

The case of the People vs. Horace Pell, for alleged criminal libel against G. Wiley Wells, was called up in Judge Cheney's Court yesterday.

The prosecution was represented by District Attorney Holton, with Judge Fitzgerald and E. M. Wade, Esq., as associates; and W. T. Williams, Esq., appeared for the defense. Owing to the fact that the Kalkman robbery case was on trial, the Bell case was allowed to go over until Tuesday of next week. It is set for 10 a. m. of that day, and Judge Cheney announced that he would not allow any other trial to intervene.

Artisans and Young Men

If you desire to place yourself above the heavy toil and struggle for life, invest your savings in growing business property. The Co-operative Nursery Tract's offer will bring you at least ten times the present price five years hence. A few lots bought now will make you independent ten years later. INVESTMENTS
—IN—
Growing City Property

Are probably more remunerative to the long run than any other class of securities. Los Angeles is so situated that its business must grow in that which makes property most valuable, inclines in but one direction, that is south. Hills on the west, river on the east, prevent the slide down of business that otherwise might take place. If, as is generally predicted, the city contains 100,000 population five years hence, the most of this acc sion for business particularly must extend out Main st. Property at that time situated on the present boundary line in hat direction will probably bear some such relation to the city that Sixth and Main now does.

These facts in mind, we refer to the extraordinary offers of the managers of the Co-operative Nursery Tract, now for sale, subdivided into 482 residence lots, some less than 50x150 feet each. This tract, situated 2½ miles south of Pasadena, is beautiful and perfect in every sense. Those acquainted speak of it in the highest terms. Handsome residences surround it in all directions.

With these lots are included ten beautiful dwellings. Heavy plank sidewalks in front of every lot; four mast electric lights; fifteen extra large corner lots; fourteen-year-old seedling orange trees and bearing vines, all of which improvements are included in the price, $260 for each lot, payable in easy installments, as follows: $50 cash at time of subscription, $25 in one month, $15 in two months and $10 in three months and each month thereafter until $260 is paid. A few lots in the orange section will afford a family living. About July 81st a drawing will take place to see which of the subscribers get the dwellings and which get the lots. These dwellings are to be elegant and first-class in every respect. Plans to be seen at office of J. M. Batchelor & Co., real estate, auctioneers, 236 N. Main street, Baker Block, where subscriptions are being rapidly received. The title of the property is perfect. For further particulars and maps call at above office. Also see large advertisement in this paper, page 3, where a more detailed description may be found. The owners of this tract, whose responsibility is of the highest class, respectfully refers to his onor, Mayor Spence, President of the First National Bank; President John E. Fisher, of Los Angeles County Bank; President Geo. H. Bonebrake, of Los Angeles National Bank. A team leaves 236 N. Main st., Baker Block, daily, fare 50, to show visitors the grounds. my8 1m
